## Bring Dull Photos to Life with *PhotoNova 2* on iOS

- Latest update to popular photo app unveils new features and exciting improvements to editing suite -

**Tirana, Albania** -- July 10, 2013 -- Enhance photos and transform simple pictures into stunning images with the latest update to *PhotoNova 2* on iOS. An essential tool for both amateur and professional iPhoneographers, the *PhotoNova 2* update features a collection of exciting new editing tools that give users unprecedented control over the aesthetics of their mobile photos. Now, anyone can elevate their simple snapshots while enjoying the benefits of a streamlined photo editing workflow.

*PhotoNova 2* is a unique and powerful app for mobile artists and photographers of any skill level. Special Select and Lasso categories allow individuals to quickly modify specific parts of their photos with a suite of high quality photo editing tools. Casual users can use *PhotoNova 2*'s new rendering capabilities to place more than 25 awesome layers into their photos including hearts, bubbles, lens flares, sunbeams and more. Professionals needn't worry, they can take advantage of the app's unique Green Screen tool and even use the Fix tool to manage imperfections like pimples or scratches. Moreover, mobile masterpieces can be shared with friends via Email, Facebook, Twitter and Instagram.

"The latest update to *PhotoNova 2* really lets individuals unleash their inner artist," states Loran Dyrnishi, CEO of DeliX Ltd. "We've included a roster of new and improved features to better help our users create the most beautiful photos possible right within the app. We can't wait to see what amazing images our fans will produce!"
